

I am writing on behalf of K-Love radio. This is the only Christian station in our area, and it is incredibly important to those of us who live in this area that the station is available to us. Although it is a national station, it feels "local" due to the warm, interactive style of the DJ's. They provide support and information for individuals in each one of their "K-Love cities," regardless of how far we may be from their broadcasting location. I cannot imagine not having this station available. It provides an important, necessary service for our community, and is very much a part of our everyday lives. Thank you much.
